Internationalization

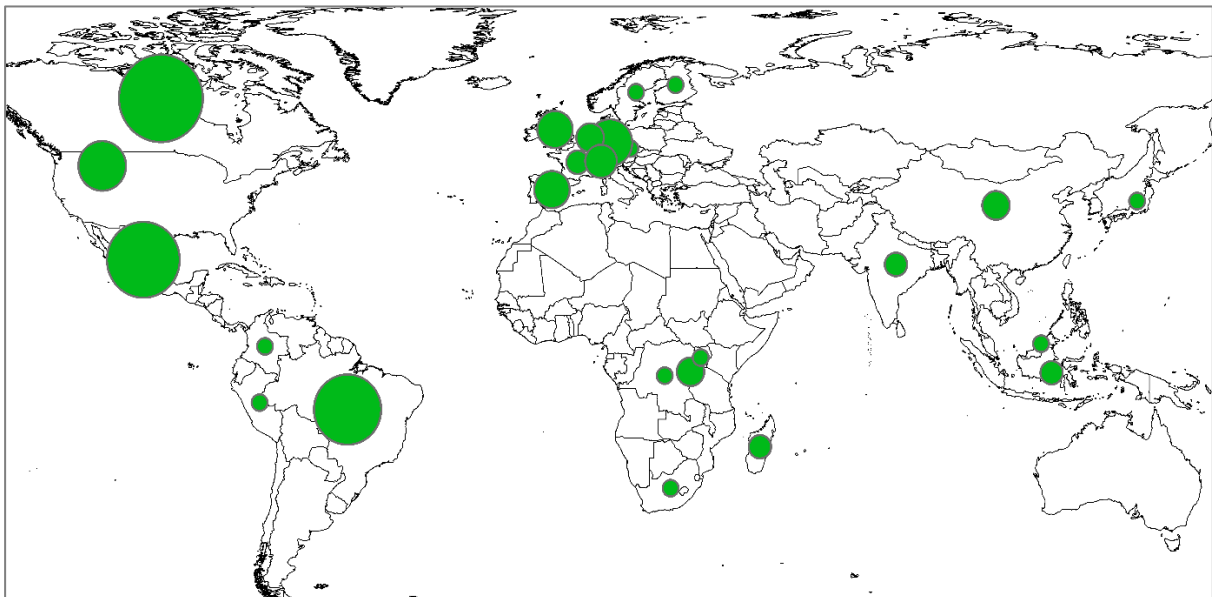

Figure 1. Distribution of researchers and students I have collaborated with in the last 5 years. Circle size represents the number of collaborators (min = 1, max = 28 collaborators).

Education

- 2014-2019** **PhD in Biological Sciences (Ecology)**
Universidad Nacional Autónoma de México (UNAM), Mexico. Mention of honor award.
Dissertation: "*Primate responses to landscape structure in anthropic landscapes*". Advisor: Dr. Víctor Arroyo-Rodríguez.
- 2012-2014** **MSc in Primatology**
University of Barcelona (UB), Spain. Highest grade of the master's program for the year (9.75/10 score)
Dissertation: "*Geographic Information System analysis of the fragmented habitat of howler monkeys (Alouatta palliata mexicana) in the Volcán de San Martín (Los Tuxtlas)*". Advisor: Dr. Joaquim Veà Baró.
- 2008-2012** **BSc in Psychology**
Universitat de Barcelona (UB), Spain.

Affiliation and employment

- July 2022-
(currently)** **Postdoctoral researcher**
Geomatics and Landscape Ecology Lab (GLEL), Department of Biology, Carleton University, Canada. Advisor: Dr. Lenore Fahrig.
- February 2020-
February 2022** **Postdoctoral researcher**
Universidad Nacional Autónoma de México (UNAM), Mexico. Advisor: Dr. Fernando Antonio Rosete-Vergés.
- October 2019** **Accepted as a postdoctoral researcher**
Northwest University, Xi'An, China. Advisor: Dr. Songtao Guo and Dr. Colin Chapman.
The postdoctoral position was cancelled due to the COVID-19 pandemic.
- July 2019-
October 2019** **Geographic Information Systems technician**
Cyient Europe Ltd. Reading, United Kingdom.
- February 2019-
June 2019** **Assistant in the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES)**
Assistant of: Dr. Patricia Balvanera. Universidad Nacional Autónoma de México (UNAM)

Research stays

- February 2021-
February 2022** **Instituto de Ecología, INECOL**

Evolutionary Macroecology Lab, Xalapa, Mexico. Principal Investigator: Dr. Fabricio Villalobos. Project: “*Assessing the global impact of landscape structure and its predictors on primates*”.

January 2018- June 2018 **Imperial College London**
Silwood Park, Berkshire, United Kingdom. Principal Investigator: Dr. Robert Ewers. Project: “*Primate responses to landscape structure in anthropic landscapes*”.

Funding history – Research grants applied for or pending submission

- 2025** **Galán-Acedo, C. Satellite Embedding Dataset: Small Grants Program.**
Project: “*Evaluating the potential of landscape structure to mitigate primate mortality during extreme heat events*”. **\$6,900 – Applied.**
Grant requested to cover processing and/or publication costs for the student who will carry out this project.
- 2025** Project led by Dr. Rachel Buxton. **Alliance grant. Natural Sciences and Engineering Research Council of Canada.** Project: “*TANAC - Trees and forests as a Nature-based solution in Canadian Cities and watersheds*”.
I am one of the collaborators from Carleton University on this project. I lead the component that will assess the effect of landscape structure in mitigating individual mortality of trees and butterflies in response to extreme climate events. The project will be likely submitted during the fall.
- 2025** **Galán-Acedo, C. Martin, A., Fahrig, L. Canadian Institute of Ecology and Evolution (CIEE). \$10,000 - October**
Project: “*Breaking myths around landscape fragmentation*”.
Funding will be requested to cover the costs of the proposed activities for a working group whose main objective will be to discuss widely held negative assumptions about the effects of fragmentation that lack robust scientific evidence. The group will also explore key future research directions in fragmentation science, with a particular focus on prioritization strategies for forest conservation and restoration policies.

Funding history – Awarded research grants

- 2020-2024** He G., Songtao, G. **Galán-Acedo, C., Chapman, C. National Science Foundation of China. \$30,000.**

Project: “*Strategical Selection of Nocturnal Sleeping-site for Adaptation to Low-temperature by the Sichuan Snub-nosed Monkeys in Qinling Mountains, China*”
- 2023** **Galán-Acedo, C. Ottawa Field Naturalist Club. \$1,900.**

Project: *"Mammals monitoring with drones: identifying the best flight parameters to maximize animal detectability"*

- 2020** **Galán-Acedo, C.**, Chapman, C. **Idea Wild (material)**.
Project: *"Back to the future: drivers of forest landscape restoration success on Rhinopithecus roxellana"*
- 2020** **Galán-Acedo, C.**, Chapman, C., Songtao, G. **Primate Conservation Inc. \$3,800**.
Project: *"Back to the future: drivers of forest landscape restoration success on Rhinopithecus roxellana"*
- 2014-2018** Arroyo-Rodríguez, V., Tabarelli, M., Melo, F., ..., **Galán-Acedo, C.**, et al. **CONACyT. \$46,300**.
Project: *"Impacto del contexto regional y paisajístico sobre la biodiversidad en bosques tropicales fragmentados: los árboles y primates como estudios de caso"*
- 2015** **Galán-Acedo, C.**, Arroyo-Rodríguez, V. **Rufford Small Grant. \$3,750**.
Project: *"Conservation of Mexican primates in fragmented landscapes: identifying threats and appropriate management strategies at different scales"*

Funding history - Academic fellowships

- 2020-2022** **Postdoctoral fellowship. DGAPA.** Dirección General de Asuntos del Personal Académico, Universidad Nacional Autónoma de México (UNAM). **\$64,800**.
Fellowship received to conduct postdoctoral research. This is the most prestigious postdoctoral fellowship in Mexico.
- 2020-2022** **Level 1 of the National System of Researchers in Mexico.** Government of Mexico. **\$31,200**.
This is a financial incentive offered by the Mexican government to researchers based on their scientific productivity.
- 2014-2019** **CONACyT scholarship** (project 2015-253946) for *"Primate responses to land use change in anthropic landscapes"*. **\$64,800**.
Fellowship received during my PhD studies in Mexico to support personal expenses.
- 2013-2014** **CCiT fellowship.** Scientific and Technologic Centers. University of Barcelona, Spain. **\$12,000**.
Scientific collaborator with the research group "Development, Teaching, and Learning for Deaf and Deafblind Individuals." During this time, I worked on a

project that aimed to investigate the role of mirror neurons in learning sign language.

2012 **ERASMUS fellowship.** European Union. **\$15,000.**

The fellowship supported my studies and living expenses during my time abroad for an academic year in Porto, Portugal.

2010-2013 **APRELS fellowship** (SGR 2009-830). University of Barcelona, Spain.
\$19,200.

Scientific collaborator with the research group "Development, Teaching, and Learning for Deaf and Deafblind Individuals." during my undergraduate studies.

Training and Supervisory Experience

Students' supervision

September 2026-September 2028	PhD student: Rong Fan. PhD in Beijing Forestry University, China. Two-year internship. Chinese Scholarship Council (CSC). Role: Advisor.
September 2025-September 2027	MSc student: Maggie Jones. MSc in Carleton University, Canada. Project: " <i>Identifying resilient landscapes to mitigate drought and heat-induced species mortality</i> ". Role: Advisor.
May 2024-March 2025	Visiting MSc student: Zilva van Rossum. MSc in University of Amsterdam, Netherlands. Project: " <i>Assessing the effect of landscape quality and heterogeneity on the Glanville fritillary butterfly genetics</i> ". Role: Advisor.
January 2024- October 2024	Visiting MSc student: Thomas Beard. MSc in Université de Franche-Comté. Project: " <i>Assessing the conservation value of small patches for primates</i> ". Role: Advisor.
September 2023- September 2024	MSc student: Katia Repullés. MSc in Primatology, Universitat de Girona (UdG), Spain. Project: " <i>Effects of habitat loss and fragmentation on Alouatta guariba</i> ". Role: Advisor.
September 2022- October 2024	MSc student: Paulina Aguirre García. MSc in Neuroethology, Universidad Veracruzana (UV), Mexico. Project: " <i>Global drivers of primates' road-kills</i> ". Role: Advisor.

Participation in students' committees and thesis defenses

2025	PhD Student: Ana Ailén Federico PhD in Agricultural Sciences, Universidad de Buenos Aires (UBA), Argentina. Member of the thesis defense committee
2024-2026	MSc Student: Lily Charles MSc in Biology, University of Ottawa, Canada.

Ongoing.

- 2020-2025** **PhD Student:** Eduardo José Pinel Ramos
PhD in Behavioral Ecology, Neuroetology, Universidad Veracruzana (UV), Mexico.
Member of the thesis defense committee
- 2022-2025** **MSc Student:** Eric Maquignaz
MSc in Ecology, Carleton University, Canada.
Member of the thesis defense committee

Teaching

- 2025** Instructor in “*Foundations of landscape ecology applied to the study of primates*”. [Universitat de Barcelona \(UB\)](#), Spain.
- 2025** Instructor of the course BIOL3901. Department of Biology, [Carleton University](#).
- 2021-2024** Instructor in “*Foundations of landscape ecology applied to the study of primates*”. [Universitat de Girona \(UdG\)](#), Spain.
- 2022** Instructor in “*Understanding and measuring patch and landscape metrics in ecological studies*”. [Universidad Michoacana](#), Mexico.
- 2020-2021** Guest lecturer in “*Advancements in fieldwork methods for behavioral biology*”. [Universidad Veracruzana \(UV\)](#), Mexico.

Fieldwork experience

- 2016-2017** Los Tuxtlas, Veracruz; Valle de Uxpanapa, Veracruz (Mexico). Ecology and census of the Mantled howler monkey (*Alouatta palliata mexicana*) and Geoffroy's spider monkey (*Ateles geoffroyi*) in tropical rainforests.
- 2015** Selva Lacandona, Chiapas; Chiapas (Mexico). Ecology and census of the Mantled howler monkey (*Alouatta palliata mexicana*), the Black howler monkey (*Alouatta pigra*) and the Geoffroy's spider monkey (*Ateles geoffroyi*) in tropical rainforests.
- 2013** Los Tuxtlas, Veracruz (Mexico). Ecology and census of the Mantled howler monkey (*Alouatta palliata mexicana*) in tropical rainforests.

Languages

Spanish and **Catalan** as native languages.

Fluent in **English** Overall IELTS Band 8 (of 9). October 2023.

French: First year of la francisation (6-hour weekly course offered by the government of Quebec, Canada).

Basic knowledge of **Italian** and **Portuguese**.

Peer review of Manuscripts

Involvement with the University

**September 2024-
September 2025**

Backup representative of the postdoctoral fellows in the Department of Biology at Carleton University

**October 2023-
January 2025**

Communications Chair of the Carleton University Postdoctoral Union.

January 2023- **Lead of the weekly scientific discussion sessions** of the
January 2024 Geomatics and Landscape Ecology Lab, Carleton University.

Scientific publications

Forthcoming contributions in peer-reviewed journals (n = 4)

Galán-Acedo, C., G. Paterno, A. Martin, F. Riva, D. Hoelscher, L. Fahrig. **Submitted**. A single large restored forest patch has lower tree diversity than several smaller ones. *Journal of Applied Ecology*.

Galán-Acedo, C., A. Martin, F. Riva, L. Fahrig. **Submitted**. Fragmentation per se decreases mean patch isolation. *Biological conservation*.

Arregoitia, L. V., J.C. Bicca Marques, A Chaudhary, R. Dobrovolski, P. Garber, **C. Galán-Acedo**, S. Gouveia, M. Friis Hansen, V. Nijman, S. Shanee, M. Svensson, F. Villalobos. **Under review**. Phylogenetic patterns in hunting and extinction risk in primates. *Biodiversity conservation*.

Fahrig, L. C. Galán-Acedo, B. P. M. Edwards, A. K. Habrich, A. E. Martin, C. H. Albert, V. Arroyo-Rodríguez, A. D. Binley, J. R. Cole, J. K. Lockhart, S. E. Nielsen, F. Riva, M. P.R. Schmoeller, T. Tschardtke. **Under review**. Comparing biodiversity in continuous vs. fragmented landscapes cannot resolve the fragmentation debate. *Biological conservation*.

Published contributions in peer-reviewed journals (n = 28)

1. Martin, A., F. Riva, **C. Galán-Acedo**, L. Fahrig. **2025**. **In press**. Forest bird diversity increases with fragmentation per se in restored landscapes. *Journal of Applied Ecology*.
2. Beard, T., F. Riva, L. Fahrig, **C. Galán-Acedo**. **2025**. **In press**. Small patches have high conservation value for primates. *Biological Conservation*.
3. Martin, A., **C. Galán-Acedo**, V. Arroyo-Rodríguez, L. Daly, S. English, A. Habrich, A. Hämäläinen, F. Riva, L. Fahrig. **2025**. Complex measures of habitat fragmentation and edge can complicate biodiversity conservation. *Conservation Letters*.
4. Repullés. K., **C. Galán-Acedo**. **2025**. Effects of habitat loss and fragmentation on *Alouatta guariba* patch occurrence in Brazil. *Land*, 14(3), 490.
5. Riva, F., **C. Galán-Acedo**, A. E., Martin, L. Fahrig. **2025**. Why we should not assume that habitat fragmentation is generally bad for restoration. *Restoration Ecology*, e14385.
6. Martínez-Ruiz, M., V. Arroyo-Rodríguez, N. Arce-Peña, S. Cudney-Valenzuela, **C. Galán-Acedo**. **2025**. Effect of forest loss and fragmentation per se on arboreal and ground mammals of the Lacandon rainforest, Mexico. *Biodiversity and Conservation*. 1-9.

7. **Galán-Acedo, C.**, L. Fahrig. **2024**. Stronger and more positive effects of fragmentation per se on patch occupancy in landscapes with higher matrix quality and lower matrix heterogeneity. *Ecography*, e07462.
8. Gordon, S., A. Duchesne, M. Dusevic, **C. Galán-Acedo**, L. Haddaway, S. Meister, A. Olive, M. Warren, J. Vincent, S. Cooke, J. Bennett. **2024**. Assessing species at risk legislation across Canadian provinces and territories. *FACETS*, 9(1), 1-18.
9. **Galán-Acedo, C.**, L. V. Arregoitia, R. Arasa-Gisbert, D. Auliz-Ortiz, L. L. Saldivar-Burrola, S. Gouveia, I. Correia, F. A. Rosete-Vergés, R. Dinnage, F. Villalobos. **2024**. Global primary predictors of extinction risk in primates. *Proceedings of the Royal Academy B*, 291(2032), 20241905.
10. Riva, F., C. Martin, **C. Galán-Acedo**, E. Bellon, P. Keil, A. Morán-Ordóñez, L. Fahrig, A. Guisan. **2024**. Incorporating the effects of habitat patches in species distribution models. *Journal of Ecology*, 112(10), 2162-2182.
11. **Galán-Acedo, C.**, L. Fahrig, F. Riva, T. Schulz. **2024**. Positive effects of fragmentation per se on the most iconic metapopulation. *Conservation Letters*, e13017.
12. **Galán-Acedo C.**, G. Pacheco-Hass, V. Klain, P. B. E. da Silva, J. C. Bicca-Marques. **2024**. Urban matrices threaten patch occurrence of howler monkeys in anthropogenic landscapes. *Land*, 13(4), 514.
13. **Galán-Acedo, C.**, R. Arasa-Gisbert, V. Arroyo-Rodríguez, M. Martínez-Ruiz, F. Villalobos, F. Rosete-Vergés. **2023**. Effects of habitat loss on Brazilian primates: assessing extinction thresholds in the Amazon and Atlantic Forest. *Perspectives in Ecology and Conservation*, 21(2), 189-195.
14. Arroyo-Rodríguez, V., Martínez-Ruiz, M., Bezerra, J. S., **Galán-Acedo, C.**, San-José, M., & Fahrig, L. **2023**. Does a Species' Mobility Determine the Scale at Which It Is Influenced by the Surrounding Landscape Pattern? *Current Landscape Ecology Reports*, 1-11.
15. Ramos Luna, J., C. Twining-Ward, J. Paula Back, J. Barakagwira, J. César Bicca-Marques, M. Chanvin, N. Diko, J. Duboscq, P. Fan, **C. Galán-Acedo**, J.F. Gogarten, S. Guo, D. Guzman-Caro, R. Hou, U. Kalbitzer, B. Kaplin, S. Lee, A. Mekonnen, P. Mungongo, H. Nautiyal, P. Omeja, V. Ramananjato, N. Raoelinjanakolona, O. Razafindratsima, C. Sarabian, D. Sarkar, J.C. Serio-Silva, R. Yanti, C.A. Chapman. **2022**. Social media's potential to promote conservation at the local level: A global tropical assessment with primates. *Folia primatologica*, 93(2), 163-173.
16. Chapman, C., **C. Galán-Acedo**, J.F. Gogarten, R. Hou, M.J. Lawes, P.A. Omeja, D. Sarkar, A. Sugiyama, U. Kalbitzer. **2021**. A 40-year evaluation of drivers of African rainforest change. *Forest Ecosystems*, 8, 1-16.

17. **Galán-Acedo, C.**, D. Spaan, J.C. Bicca-Marques, F. Villalobos, F. Rosete-Verges. **2021**. Regional deforestation drives the impact of forest cover and matrix quality on primate richness. *Biological Conservation*, 263, 109338.
18. Arasa-Gisbert, R., V. Arroyo-Rodríguez, **C. Galán-Acedo**, J. Meave, M. Martínez-Ramos. **2021**. Tree recruitment failure in old-growth forest patches across human-modified rainforests. *Journal of Ecology*, 109(6), 2354-2366.
19. **Galán-Acedo, C.**, V. Arroyo-Rodríguez & C. Chapman. **2021**. Beyond patch size: The impact of regional context and habitat quality on three endangered primates. *Perspectives in Ecology and Conservation*, 19(2), 207-2015.
20. **Galán-Acedo, C.** , V. Arroyo-Rodríguez, E. Andresen & P.A. Días. **2021**. Regional context mediates the response of Mexican primates to landscape structure in fragmented rainforests. *Biological Conservation*, 255, 109006.
21. Alcocer-Rodríguez, M., V. Arroyo-Rodríguez, **C. Galán-Acedo**, J. Cristóbal-Azkarate, N. Asensio, K. F. Rito, J. E. Hawes, J. J. Veá & J. C. Dunn. **2021**. Evaluating extinction debt in fragmented forests: the rapid recovery of a critically endangered primate. *Animal Conservation*, 24(3), 432-444.
22. Arroyo-Rodríguez, V., L. Fahrig, M. Tabarelli, J. I. Watling, L. Tischendorf, M. Benchimol, E. Cazetta, D. Faria, I. R. Leal, F. P. L. Melo, J. C. Morante-Filho, B. Santos, R. Arasa-Gisbert, N. Arce-Peña, M. J. Cervantes-López, S. Cudney-Valenzuela, **C. Galán-Acedo**, M. San-José, I. C. G. Vieira, F. Slik, J. Nowakowski, B. T. Phallan & T. Tschamntke. **2020**. Designing optimal human-modified landscapes for forest biodiversity conservation. *Ecology Letters*, 23(9), 1404-1420.
